

## **EMERGENCY WINTER BRUSH PICKUP**

Due to excessive damage from this past winter storm, our DPW will conduct an emergency winter brush pickup. Beginning January 6<sup>th</sup> and running through January 31<sup>st</sup> pending no further storms or delays preventing them from completing this large undertaking.

Please be aware the following rules will apply in order for the DPW to pick up and dispose of the brush:

1. We will only pick up piles of branches and limbs that are no longer than 6 – 12 feet. Do not include branches that are more than 4 inches thick in diameter.
2. Please pile brush neatly curbside with the larger end (cut side) facing the curb.
3. All branches what are smaller than 6 feet long should be bundled and tied.

The DPW is only going around town once to make this pickup so please make sure you have brush out by January 6<sup>th</sup>. Where they start has not been decided so please prepare accordingly.

Thank you for your patience and understanding while we continue to clean up our town.
