Good Afternoon Everyone,

With the ever increasing use of technology, the Municipal Division will be implementing a municipal court website project with the goal of streamlining information that each court disseminates. First, I ask that you open the excel spreadsheet titled "requirements for your website". This will outline what the baseline requirements will be. I also have attached supplemental documents that correspond to the excel file. These documents are required to be accessible from your court's website. Several of the attached are in English and Spanish, both of which are required. I will be working with each of you to implement this project. It is our hope that by November 1, 2018 the updates will be complete.

If you should have any question on any aspect of this project, please reach out to me.
