

2022 RABIES CLINIC INFORMATION

From the County of Sussex;

Due to unforeseen circumstances there is a shortage of rabies vaccines for municipal clinics at this time.

Other options for rabies vaccinations include: a veterinary hospital, a clinic in another town/municipality, or a participating pet supply store. You will need to contact each place for a schedule, they are not random walk-in establishments. If you choose any of these options, please make sure to retain your rabies certificate.

As a pet owner you are still responsible for licensing your pet for 2022 even if a clinic is unavailable. To avoid a late fee, this typically needs to be done by the end of January. It is strongly recommended that you contact the municipality where you live to find out their due dates, fees and requirements.

You can find a link to each municipality on the Sussex County Website (<https://www.sussex.nj.us/>). Once on the website go to the "Municipalities" tab and locate your town for a phone number.

We apologize for any inconvenience this may cause
